## COUNTY SCHOOLS.

An Interesting Letter From Carter District and Other Items.

By B. S. STEARNS, Supr. Schools.

The Cape Girardeau Normal has published a bulletin that should be interesting to the teachers. It is a syllabus of history work in first grade, representing a field of endeavor which the department of education of the Normal has been planning for some time and is now putting into execution as rapidly and completely as its facilities for the work will permit; it undertakes to be one solution of the problem of how this department of the Training School should render practical assistance to the teachers in the ranks. The bulletin may be had by writing the State Normal School, Cape Girardeau, Mo.

In my work I often have expressions of thanks for my efforts, but I am in receipt of a letter of thanks signed by the board of education which I appreciate, which is as follows:

Board of Education, Carter District, Portageville, Mo.

"We offer you our thanks for visiting our school and recommending that it be placed on the approved list of public schools of the state. We have received our approved certificate from the State Superintendent of Schools; we appreciate it and have had it framed and placed in our school room.

"We would like to call your attention to the fact that there is a report being circulated that the Gibson school, which Mr. Coleman is teaching, is paying the highest salary for a rural teacher in the county—\$75.00 per month. We wish to say that we pay this salary and, also, pay the janitor for our teacher, and during the three hardest months of his work, we paid him \$85.00 per month.

"We are proud of our school and appreciate the interest you (Continued on Page Four.)

## A TOUCH OF LAW.

Justice and Fairness Should Prevail Among All Men.

Last week we exposed some fake tales that were being circulated for the purpose of defeating City Marshal Dewey at the April election. We exposed them not only because they were false, but because the people should know the truth.

This week we find it necessary to expose another tale.

It is said that a bawdy house is being run in Hayti, and, as strange as it may seem, the man who rents the house to the prostitutes, and who ought to know, is helping to circulate the report, and is complaining against Dewey.

Well, here is the law; read it: Chapt. 15, Sec. 40, Revised Ordinances City of Hayti.—Every person who shall knowingly lease or let to another any house or building \* \* \* for the purpose of being kept or used as a \* \* \* brothel or bawdy house, shall, upon conviction be \* \* \* punished by a fine not exceeding five hundred dollars.

Now, will this good man get these prostitutes out of the house?

Dewey says that he will make arrests upon proper information or serve any papers placed in his hands.

Why don't these good people stand behind the marshal and help him to enforce the law, instead of trying to injure him as an official?

Whether there is any bawdy houses or gambling in Hayti, we don't know, but if there is, those who do know it should furnish the officers of the law with sufficient evidence to stop it.

Leo Greenwell went over to Caruthersville Saturday, and joined the banquet excursion party over the new railroad to Deering, which was given by the railroad men, and was a grand affair. This was the first passenger train over the new road.

"My Dear Mr. Washington: I am greatly distressed at your misfortune and I hasten to write you of my sympathy, of my hope that you will soon recover from the wounds inflicted by an insane, suspicious or vicious character and of my confidence in your integrity and morality of character and in your highest usefulness to your race and to all the people of this country.

"It would be a nation's loss if this untoward incident in any way impaired your great power for good in the solution of one of the most difficult problems before us.

## A RELIABLE WATCH

### IS A TRUE FRIEND

Does YOUR watch keep correct time, or do you just look at it and guess at the time? A watch is a very delicate piece of machinery and should be cleaned and oiled regularly to give perfect satisfaction.

Almost any reasonably good watch will give satisfaction if it is properly cared for, however great care should be exercised in the selection of a watchmaker. If sick you wouldn't care to place yourself under the treatment of a horse doctor. Would you? Neither do you care to place a valuable watch in the hands of an inexperienced workman, or one who is not thoroughly acquainted with all the delicate parts of this little piece of machinery.

We have a watchmaker who is familiar with all the various kinds of watches; he does nothing but repair watches, clocks and jewelry. No other kind of repair work is done; therefore his entire attention is given to this particular kind of work. This, together with our absolute guarantee of satisfaction should convince YOU that THIS is the place to have your repair work done. REMEMBER that if you have a watch or piece of jewelry that cannot be repaired in the ordinary jewelry store we will send it to the factory, get an estimate of the cost, and tell you before the work is done just exactly what it will cost you.

YOU WILL SAVE BOTH TIME AND TROUBLE BY BRINGING YOUR WORK HERE.

### A NEW WATCH

If you are in need of a new watch we will appreciate a chance to show you our line, and if we cannot suit you from our stock we will get almost any kind you want in three days time. Below are a few of our best sellers, which are kept regularly in stock.
